

**Vehicle Refresher and
Technology Update (Sat & Sun)**

Max. Students:30

Course Description: This 16-hour classroom program is designed as a refresher to the Basic Vehicle Rescue Program and to update rescuers on the newest and most current information related to vehicle design; electric, hybrid, and other alternative energy propulsion systems; airbags and other supplemental restraints. The program focuses on the "need-to-know" information for street rescuers so that they can perform a safe and quick patient-oriented rescue in the modern road vehicle.

Prerequisites: BVRT

Student Equipment & Supplies: Pen/pencil and notebook; small notebook for field notes.

CLASS SELECTIONS

Thursday and Friday Evening

Fayette County Public Safety

Radio System Overview (Thur only))

Max. Students:30

Course Description: This program will provide information relative to Fayette County's transition to the Inter County Regional Radio System (ICORRS) and its impact on the Public Safety users. Topics will include general radio usage, Talk Group configuration, channel assignments, Mutual Aid operations both in and out-of-county, emergency procedures, dispatch protocol and on scene communications will be discussed and demonstrated. Functionality of various radios will also be reviewed.

Prerequisites: None

Student Equipment & Supplies: Pen/pencil and notebook.

Fire Attack in Sprinklered Properties (Fri only)

Max. Students:30

Course Description: This course gives an overview of how sprinkler systems are designed and constructed, why some large loss fires occur in spite of the presence of sprinklers, and how the fire department can minimize the change of such an occurrence.

Prerequisites: ELIS

Student Equipment/Supply Needs: Pen/Pencil, Notebook.

Saturday and Sunday

Respiratory Protection I (Sat & Sun)

Max. Students:30

Description of Course: This program gives the student a chance to become proficient in the use of S.C.B.A., allowing ample time to practice various skills and perform several exercises with their S.C.B.A. This course is particularly useful as a review for experienced fire service personnel or as an introductory course for persons (such as EMS) who use SCBA in a hazardous atmosphere other than fire conditions

Prerequisites: ELIF or EBM; **Pa State Fire Academy facial hair policy applies.**

Student Equipment/Supply Needs: Note taking material, turn out gear, SCBA with spare cylinder, and PASS device.

Basic Firemanship Sat & Sun)

Max. Students:60

Description of Course: This course will introduce the student to basic knowledge and skills used to operate at structure fires. The course serves as an introduction to firefighting and should be used to prepare new members for completion of the Pa. Essentials Course. Course work will include practical drills.

Prerequisites:

Student Equipment/Supply Needs: Note taking material, turn out gear, SCBA with spare cylinder, and PASS device.

Pump Operations I (Sat & Sun)

Max. Students:30

Description of Course: This course provides the fire fighter with an introduction to basic pump construction and theory as well as operating techniques. Emphasis is placed on getting water to the pump, getting water from the pump for hose streams, and prevention of common mistakes in pump operations.

Prerequisites: IST

Student Equipment/Supply Needs: Pen/Pencil, Notebook suitable for classroom and field use. Fire fighter protective clothing.

Responding to Helicopter

Emergencies (Sat only)

Max. Students:20

Description of Course: : This class will introduce students to the different types of Helicopters and Helicopter emergencies that the Structural Fire-fighter may encounter. The types of extinguishing agents and proper fire attack procedures will be discussed and practiced. Crash site operations and victim removal will be discussed and practiced. Program involves live fire scenarios with helicopter simulator.

Prerequisites: ELIF or DHMO/HMO

Student Equipment/Supply Needs: Pen/Pencil, Notebook suitable for classroom and field use. full structural PPE including SCBA and spare cylinder.

Elevator rescue Training (Sat & Sun)

Max. Students:25

Description of Course: This course will introduce the student to basic knowledge and skills necessary to perform the rescue of persons trapped in elevators.

Prerequisites:

Student Equipment/Supply Needs:
